

Maternal & Child Health

Department of Health American Samoa

July 17, 2015

To Whom It May Concern:

RE: Title V – Medicaid IAA/MOU

Currently, the Department of Health works closely with the Medicaid Office as the Director of Health is the Chairman for the Health Taskforce for the Territory and the Medicaid Director is the Vice- Chairman.

Medicaid for American Samoa is undergoing new consideration of enrolling individuals individually, but currently, Medicaid is given to LBJ who is the only LBJ Medicaid provider for the past years. The Community Health Center has requested for Medicaid to consider as a Medicaid provider and revised Medicaid Plan was submitted by Medicaid Director to include the Department of Health as a Medicaid provider.
